

The Outpost Lodge Boat and Motor Rentals

We are certified to provide the opportunity for everyone to legally operate a boat and motor in Ontario with the completion of our checklist and boatside operation instructions. This can be with or without a boating license. We will make sure that you are aware of all safety procedures as well as the navigational features of our lake and provide you with a lake map and all safety equipment.

When you arrive, we will set up a time for you to meet with Jim for your tutorial. We will provide you with personal floatation devices. The boat will be equipped with oars, anchor, safety kit and bailing buckets as well as enough line (rope) for anchoring and safety.

Our boats are 15.5' Princecraft and 16' Lund aluminum with 9.9 Mercury 4 Stroke motors. They are the perfect fishing boats for two or three people. All fuel is supplied.

For the fisher person, bring along a fish finder, trolling motor and battery.

Bring your own boat! Great, paved roads direct to our door! There are no horsepower limits or launch lineups. Our rugged area is blessed with many different sized lakes, all for you to explore. The Mississagi River is a quick drive for those wanting to do a little shore or canoe fishing or perhaps walk one of her streams.

Boat and Motor : \$375 per week / \$75 per day

Rates are in Canadian funds. HST Tax (13%) extra.

Make sure you have your fishing license before you come! Go online to Ontario.ca/outdoorscard. You will be able to apply for and print your license direct from the website. There is a lot of information available on this site as well as recent fishing regulations. We are in Zone 10.
